

Smoking area on campus

To all students,

In line with the enforcement of the revised Health Promotion Act and the Tokyo Metropolitan Ordinance to Prevent Exposure to Second-Hand Smoke, we had prohibited smoking on campus from April, 2021. However, considering the present circumstances that there were troubles related to smoking around campus, we came to the conclusion that we had no choice but to reinstall the smoking area on campus temporarily. Thus, we installed the campus smoking area at the site of a demolished H-building from September, 2022. Using the smoking area, you must keep the notes and smoking rules etc. below.

【Notes for using the smoking area】

- You should not smoke outside of the designated smoking area.
- Cigarette littering is not allowed.
- You should not stay at the smoking area for a long time.
- You can't use the area for the purpose other than smoking such as eating or drinking etc.
- Unhygienic behaviors such as spitting and littering are not allowed.
- You should not sit down in the smoking area.
- As dictated by the law, people under the age of 20 can't use the smoking area.
- Others, the act getting faculties, students and residents of a neighborhood etc. into trouble is not allowed.

Installing a smoking area on campus is not for accepting smoking on campus in the future, but for trying to solve various problems: minors' smoking, smoking in a prohibited area or on a street. We think this is the first step for achieving the future goals with no smoking on campus while we continue to avoid passive smoking.

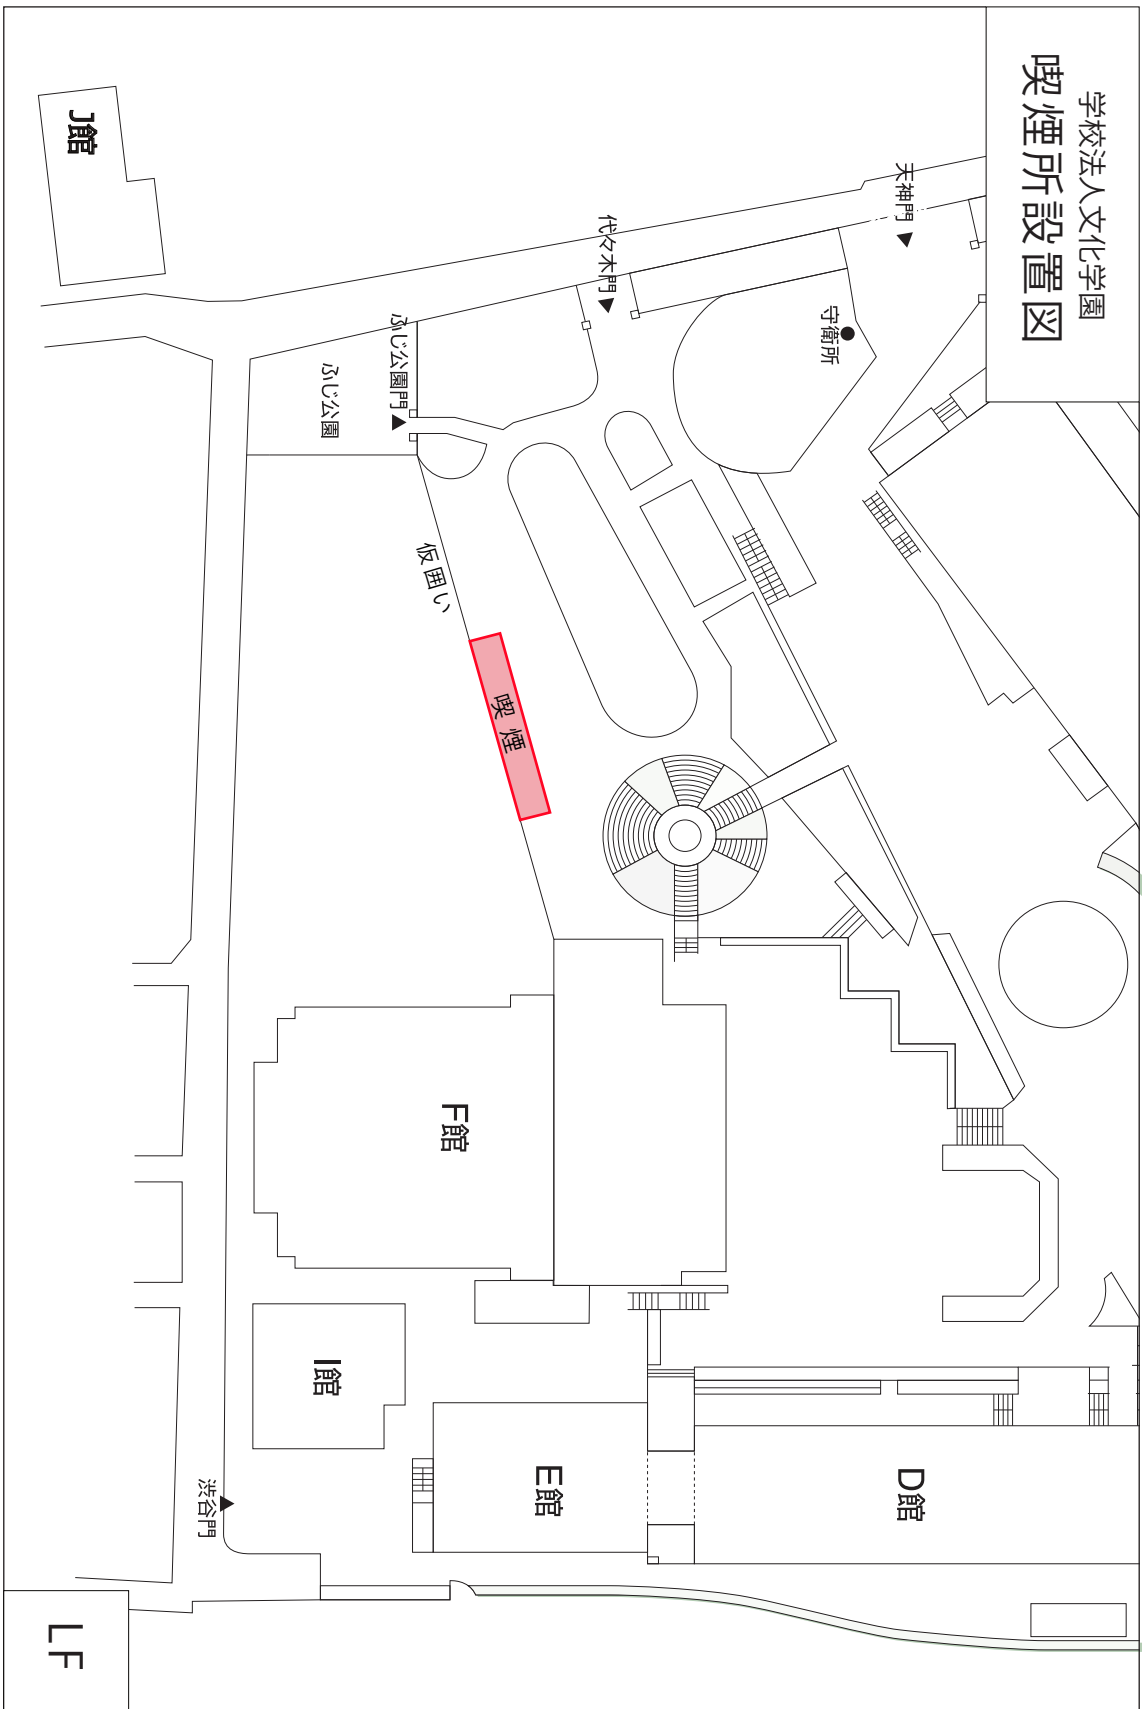

From now on, we will ask following individuals to provide their student ID to identify themselves. Also, please note that we will severely punish if you get warnings several times or when we assume you violate the rules maliciously.

- Smoking outside of the smoking area on campus
- Violating smoking rules or annoying behaviors around campus

Violating smoking rules and any annoying behaviors around campus is a compromise to our school reputation. Each of you should turn your minds to this issue at hand and act properly.
